

QUALITY POLICY

Obligations and Commitment

The policy of Midway Limited (the Company) for producing and exporting wood chip is to:

- Meet the contractual requirements and expectations of our customers at all times; and
- Comply with all relevant legal requirements.

Objectives

The Company will achieve this by:

- Ensuring all our business operations that impact on wood chip quality are controlled in accordance with the Company's AS/NZS ISO 9001 quality management system;
- Providing appropriate resources and training in the quality management system; and
- Regularly reviewing business activities and performance to establish quality objectives that will continually improve the quality management system and the Company's ability to supply quality wood chip product.

The desired outcome of the quality management system is to increase customer confidence and satisfaction, which in turn, will provide future opportunities for the Company to expand its business.
