

Midway Limited is certified to the following forest management and chain of custody standards:

- FSC Controlled Wood Standard For Forest Management Enterprises (FSC-STD-30-010) ;
- FSC Standard for Chain of Custody Certification (FSC-STD-40-004);
- FSC Standard Requirements for Sourcing Controlled Wood (FSC-STD-40-005);
- Responsible Wood - Sustainable Forest Management (AS4708); and
- Responsible Wood - Chain of custody for forest products (AS 4707)

The links below provide documentation relating to Midway’s implementation of the standards and stakeholder involvement, including Midway’s Forest Management Plan, map of planned and active forest harvesting operations (Google Earth kml file), controlled wood verification program and publicly available summaries of audit reports.

We invite stakeholders that are involved with or have an interest in the forest area to offer comment or feedback by the 30/11/2018 in relation to:

- identifying High Conservation Values (HCVs) and threats to them, including biodiversity, forest productive capacity, forest ecosystem health, soil and water, cultural values;
- controlled wood verification processes;
- precautionary measures applied to protect HCVs; and
- the Forest Management Plan
